CHAPTER I: SCOPE

Article 1
The rules and regulations hereinafter are only applicable to the Research Project (PDR) instrument enabling the funding of research programmes within the framework of the Credits and Projects Call of the Fund for Scientific Research - FNRS\(^1\) (F.R.S.-FNRS).

From 2021 onwards, some European research funding agencies mutually open their project funding instruments to research teams from partner agencies of the Weave network. Researchers from the French-speaking Community of Belgium can therefore include partners from another partner agency in the PDR instrument of the F.R.S.-FNRS.\(^2\)

**Main promoter:** Researcher responsible for the submission of the application. They can ask for budget related to the tasks of which they will be in charge during the accomplishment of the project.

**Co-promoter:** Researcher who takes part in the preparation of the application and in the accomplishment of the project in case of granting. As such, they can ask for a budget related to the tasks of which they will be in charge.

**Project initiator:** Researcher whose skills and/or knowledge will be useful for the accomplishment of the project but who will not be in charge of any tasks. They can not ask for a budget.

Article 2
The research programme may be conducted in one or several institutions listed in Appendix 1.

Article 3
The main promoter is the person who assumes the scientific responsibility and is in charge of the administrative management of the funded research programme.

---

1 The Fund for Scientific Research - FNRS shall be understood as the F.R.S.-FNRS and its Associated Funds.

2 In 2021, the F.R.S.-FNRS offers the possibility to submit collaborative project proposals, as part of the PDR instrument within the framework of the Credits and Projects Call 2021, with Luxembourg research institutions eligible to the FNR Luxembourg and/or Swiss research institutions eligible to the SNSF Switzerland.

Luxembourg partners must comply with the guidelines of the INTER programme of the FNR.

Swiss partners must comply with the guidelines as mentioned on the SNSF Weave page.
CHAPTER II: APPLICATION

II- A.: PROMOTERS

Article 4
The main promoter-applicant to a PDR must be:

- Either a Research Associate, a Senior Research Associate or a Research Director of the F.R.S.-FNRS and assuming the function and duties of such position at the latest by 15th November of the year when submitting the application.

- Or a researcher appointed in a university of the French-speaking community of Belgium listed in Appendix 1 and must meet the following conditions altogether:
  - Be permanently appointed to an academic or scientific position or on probation in that university.
  - This appointment must have a final and conclusive assent from the competent body to legitimize this appointment in accordance with the Law or the university regulations at the latest by 15th November of the year when submitting the application.
  - This academic or scientific position must be effective at the latest by 15th November of the year when submitting the application.

If the main promoter-applicant who is appointed permanently accesses the legal age of retirement / becomes professor emeritus after the validation deadline set for the academic authorities (rectors) and before the end of the funding scheme in case of granting, the submission of the application shall be subject to prior approval by the Head of institute where the research will be carried out.

The main promoter-applicant permanently appointed who will access the legal age of retirement / become professor emeritus by the validation deadline set for the academic authorities (rectors) is not eligible.

The project initiator is not subjected to any eligibility rule.

Article 5
The Cross-university PDR provides for the participation of one co-promoter-applicant per institution, provided that they are not from the main promoter-applicant’s institution.

Any co-promoter-applicant involved in a Cross-university PDR shall also meet the eligibility criteria as referred to in article 4.

II- B.: ACCUMULATION RULES

Article 6
Any promoter must comply with all the accumulation rules as referred to in Appendix 2 as well as those regarding the PDR-Weave instrument.

---

3 Research logisticians of rank A, as defined by the Royal Decree of 31st October 1953 fixing ‘le statut des agrégés, des répétiteurs et des membres du personnel scientifique des universités de l’État’, are allowed to be co-promoter-applicant provided they hold a Ph.D.
II- C.: SUBMISSION OF APPLICATION

Article 7
The “Credits and Projects” Call is opened once a year and is published on the F.R.S.-FNRS website.

The application can be submitted in French or in English. It must only be submitted on e-space, the online platform dedicated to the calls for proposals.

It is recommended to applicants who wish to have their application file assessed by Scientific Commissions dedicated to SEN (Exact and Natural Sciences) and SVS (Health and Life Sciences) fields, as well as the Scientific Commission SHS-2, to submit their application in English4.

All PDR applications are submitted to a procedure including successive electronic validations on the dates that will be indicated when the call is published.

a. The validation by the main promoter, responsible towards the F.R.S.-FNRS administration: it accounts as a confirmation that the application is complete.
b. The validation by the co-promoters (if any, and for Cross-university PDR only): it accounts as an electronic signature.
c. The validation by the research administration (or Board of Education) of the institution to which promoters are related – the Authority to which the application file is transferred once promoters have validated the application form. That authority may accept or refuse the application. The validation deadline set for the rectors puts a final end to the call for proposals.

Applications that have not been validated within the time-frame of the call cannot be taken into account.

The validation dates are available in the mini-guide.

II- D.: ELIGIBILITY OF APPLICATIONS

Article 8
As part of PDR applications including other partner agencies of the Weave network, the F.R.S.-FNRS and each partner agency validate the eligibility of applications in accordance with their own criteria. In case an application has been declared ineligible by one of the partner agencies, the entire application will be declared as ineligible.

Those amounts cannot be changed after submitting the application.

Non-doctoral Researcher and Technician categories are subject to an annual limit, calculated in proportion to the number of days worked. Limitations in force for the first year of funding are detailed in the Credits and Projects Call mini-guide.

\(^6\) In case of a grant, the Doctoral Researcher must only be hired on a full-time basis.

\(^7\) The promoter shall contact the relevant department of their host institution in order to determine the Postdoctoral Researcher’s status (Mobility situation, grant, employee…) and the work time.
Promoters are allowed to recruit personnel for a minimum of one month and the duration may not exceed the maximal duration of the funding agreement.

The identity of the personnel is not required when submitting a PDR application; however, the personnel category must be specified (see table above).

Article 16
On the date of the hiring, Doctoral Researchers must have obtained one of the following degrees for 3 years maximum (for no more than the duration of the specialisation for doctors and veterinarian applicants who have been undertaking a medical or veterinary specialty training):

---

8 The Postdoctoral Researcher with a grant status must have obtained said degree for 6 years maximum.
CHAPTER IV: EXAMINATION OF APPLICATIONS

Article 20

<tbody>
<tr>
<td>Quality of the promoters:</td>

</tr>
<tr>
<td>Methodology and relevance</td>
<td></td>
</tr>
<tr>
<td>Originality</td>
<td></td>
</tr>
<tr>
<td>Collaborations</td>
<td></td>
</tr>
</tbody>
</table>

The adequacy of the requested budget with regard to the submitted research programme will also be evaluated. The Scientific Commission may reduce the requested budget up to a maximum of 15%. If the adequacy between the research programme and the requested budget is not justified and appears to require a reduction of more than 15%, the research programme will not be deemed fundable.

Article 21
The decision-making body of the F.R.S.-FNRS allocates funds according to the budget that is available. It decides on the granting or rejection, and where provided for, on the amounts to be granted.

CHAPTER V: FINANCIAL PROVISIONS

Article 22
Funding granted through the PDR instrument is subject to a research agreement.

This agreement shall bear the signature of the following parties:

- The promoter commits to carrying out the funded research;
- The F.R.S.-FNRS commits to allocating grants covering the personnel, operating and equipment costs, each year covered by the agreement. No transfer between those 3 expense items may be accepted;
- The host institution.

In the particular case of joint research carried out by several promoters in several host institutions, each institution takes part in the agreement, which contains all the relevant provisions regarding personnel recruitment, grants management and equipment ownership.

The agreement provides for unilateral termination clauses, which must include a period of notice.

Article 23
Any change made to the planned expenses must receive the prior written approval of the F.R.S.-FNRS.

The budget devoted to the personnel is available only for the duration of the research agreement, which may be extended for maximum 6 months in case of postponement of personnel recruitment expected
although not effective on the starting date of the agreement, and is divided according to the provisions of the agreement.

The budget devoted to operating and equipment costs can be used for the duration of the agreement, with an additional 12-month period.

The unspent amount will be recovered by the F.R.S.-FNRS.

**Article 24**
Grants at the disposal of the promoters are managed by the financial department of the institution to which they are attached.

The financial department of the institution shall send the supporting documents to the F.R.S.-FNRS as soon as possible.

For the personnel costs relevant to a given calendar year, the supporting documents must be sent before the 1st March of the following year.

The supporting documents justifying operating and/or equipment costs must be sent at the latest 14 months after the end of the research agreement, i.e., before 1st March of the year in question.

**Article 25**
The promoter has to inform the F.R.S.-FNRS of any personnel hiring.

The replacement of personnel among the Doctoral researcher category is not authorised during the last 6 months of the research agreement.

The personnel recruitment which was expected although not effective on the starting date of the agreement may be delayed. However, postponement shall be equivalent to the lost employment duration and not exceed a six-month period after the end of the agreement nor the employment duration initially allotted.

**Article 26**
Scientific and technical personnel shall be recruited in accordance with the scales and regulations in force within the host institution.

As for Non-doctoral Researchers and technical personnel, the F.R.S.-FNRS contribution is subject to an annual limit assigned from the Fund and is calculated in proportion to the number of days worked.

**Article 27**
The F.R.S.-FNRS shall reimburse personnel costs up to the total amounts indicated in the research agreement, while observing the Personnel categories.

Concerning Personnel categories there is some flexibility in terms of annual costs and duration, should the granting duration and maximum amount not be exceeded. Also for categories which are annually capped, this annual limitation shall not be exceeded, on the understanding that employment may not exceed the ending date of the agreement, except in case the recruitment has been postponed as provided for in article 25 § 3.

The financial participation of the F.R.S.-FNRS is limited to the global amount indicated in the agreement.
CHAPTER VI: MISCELLANEOUS PROVISIONS

Article 28
Any device acquired with a credit from the F.R.S.-FNRS becomes the property of the host institution, to which the beneficiary of the credit is attached.

The purchase of any device must be done with due respect for the provisions defined by the relevant department of the host institution.

This institution commits, however, to putting the mentioned device at the disposal of the researchers involved for the time needed in order to conduct the research, which led to its purchase in the first place. In addition, the host institution commits not to alienating or lending the equipment without the prior written approval of the F.R.S.-FNRS.

In the event that the device was purchased with the provision of an additional funding, the Board of Trustees of the F.R.S.-FNRS will settle the ownership issue with the competent authorities.

Article 29
Grants are exclusively allocated for the execution of the research programme approved by the F.R.S.-FNRS. Promoters are required to use them solely for that purpose. Any fundamental change in the research programme must obtain the prior written approval of the F.R.S.-FNRS.

CHAPTER VII: RIGHTS AND OBLIGATIONS OF THE PROMOTERS

Article 30
Any funded research programme must comply with the legal provisions in force regarding ethics.

Article 31
Promoters must submit to the rules imposed by the academic authority of the host institution where they work and observe its regulations. In addition, regarding the F.R.S.-FNRS, they must adhere to the regulation on property, protection and promotion of the results from the research carried out within the institution.

Article 32
Pursuant to the Regulation on the application of the Open Access policy to scientific publications resulting from research programmes supported by the F.R.S.-FNRS and its Associated Funds, any scientific publication resulting partially or fully from the funding granted as part of the PDR instrument shall mention the source of this funding as follows:

“This work was supported by the Fonds de la Recherche Scientifique-FNRS under Grant(s) n° [agreement number].”

CHAPTER VIII: EX-POST INDICATORS

Article 33
The F.R.S.-FNRS collects ex-post quantitative indicators related to the funding of the PDR granted (e.g., number of publications, patents, dissertation and theses) as well as the publications list.

The main promoter shall communicate those data to the F.R.S.-FNRS on the e-space platform during the entire duration of the PDR extended by a 2-year period.
