Article 2
The research programme may be conducted in one or several institutions listed in Appendix 1.

Article 3
The main promoter is the person who assumes the scientific responsibility and is in charge of the administrative management of the funded research programme.

CHAPTER II: APPLICATION

II- A.: PROMOTERS

Article 4
The main promoter-applicant to a PDR must be:

➢ Either a Research Associate, a Senior Research Associate or a Research Director of the F.R.S.-FNRS and assuming the function and duties of such position at the latest by 15th November of the year when submitting the application.

➢ Or a researcher appointed in a university of the French-speaking community of Belgium listed in Appendix 1 who must meet the following conditions altogether:

---

¹ The Fund for Scientific Research - FNRS shall be understood as the F.R.S.-FNRS and its Associated Funds.

² Following the conclusion of a "Lead Agency Procedure (LAP)" collaboration agreement with the National Research Fund of Luxembourg (FNR), the F.R.S.-FNRS provides the opportunity to submit collaborative project proposals, as part of the PDR instrument within the framework of the F.R.S.-FNRS Credits and Projects Call, with research institutions established within Luxembourg and eligible for the FNR Luxembourg. Luxembourg partners must comply with the INTER programme guidelines from the FNR.
- To be permanently appointed to an academic or scientific position or on probation in that university.
- This appointment must have a final and conclusive assent from the competent body to legitimize this appointment in accordance with the Law or the university's regulations at the latest by 15th November of the year when submitting the application.
- This academic or scientific position must be effective at the latest by 15th November of the year when submitting the application.

If the main promoter-applicant who is appointed permanently and accesses pension / becomes professor emeritus after the validation deadline fixed for the academic authorities (rectors) and before the end of the funding scheme in case of granting, the submission of the application shall be subject to the prior approval of the Head of institution where the research will be carried out.

The main promoter-applicant permanently appointed who will access pension / become professor emeritus by the validation deadline fixed for the academic authorities (rectors) is not eligible.

**Article 5**

The Cross-university PDR provides for the participation of one co-promoter-applicant per institution, provided that they are not from the main promoter's institution.

Any co-promoter applicant involved in a Cross-university PDR shall meet the eligibility criteria as referred to in article 4.

**II- B.: CUMULATION RULES**

**Article 6**

Any promoter must comply with all the cumulation rules as referred to in Appendix 2.

**II- C.: SUBMISSION OF APPLICATION**

**Article 7**

The “Credits and Projects” Call is opened once a year and is published on the F.R.S.-FNRS website.

The application can be submitted in French or in English. It must be submitted online, only through the e-space management platform dedicated to the calls for proposals.

It is recommended to applicants who wish to have their application file assessed by Scientific Commissions dedicated to SEN (Exact and Natural Sciences) and SVS (Health and Life Sciences) domains, as well as the Scientific Commission SHS-2, to submit their application in English.

All PDR applications are submitted to a procedure including two or three successive electronic validations on the dates that will be indicated when the call for applications is published.

---

3 Research logisticians of rank A, as defined by the Royal Decree of 31st October 1953 fixing 'le statut des agrégés, des répétiteurs et des membres du personnel scientifique des universités de l'État', are not allowed to be the main promoter-applicant. They are not allowed to be either the co-promoter applicant involved in the Cross-university PDR.

4 Should the application file be submitted in French, the F.R.S.-FNRS may require the applicant to provide a translation in English for the purpose of conducting the ex-ante evaluation.
a. The validation by the main promoter, responsible proponent accountable to the F.R.S.-FNRS administration: it accounts as a confirmation that the application is complete.

b. The validation by co-promoters (if any, and for Cross-university PDR only): it accounts as an electronic signature.

c. The validation by the research unit (or Board of Education) of the institution to which promoters are related – the Authority to which the application file is transferred once promoters have validated the application form. That authority may accept or refuse the application. The validation deadline fixed for the rectors puts a final end to the call for proposals.

Applications that have not been validated within the time-frame of the call cannot be taken into account.

The validation dates are available in the mini-guide.

Those amounts cannot be changed after submission of the application.

Technician and Short-term Postdoctoral Researcher and Veterinary M.D. Ph.D Specialist categories are subject to an annual limit, calculated in proportion to the number of days worked. Limitations in force for the first year of funding are detailed in the Credits and Projects Call mini-guide.
The maximum period of time mentioned above is extended for one additional year per childbirth and/or adoption occurring after obtaining the academic degree or diploma considered when deciding to offer the position.

**CHAPTER IV: EXAMINATION OF APPLICATIONS**

**Article 16**

Criteria that will be taken into account for the evaluation of the PDR applications are the following:

<table>
<thead>
<tr>
<th>CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Quality of the promoters:</td>
</tr>
<tr>
<td>☑ CV and publications</td>
</tr>
<tr>
<td>☑ International recognition</td>
</tr>
<tr>
<td>☑ Main research achievements</td>
</tr>
<tr>
<td>Quality of the research programme:</td>
</tr>
<tr>
<td>☑ Feasibility</td>
</tr>
<tr>
<td>☑ Methodology and relevance</td>
</tr>
<tr>
<td>☑ Originality</td>
</tr>
<tr>
<td>☑ Collaborations</td>
</tr>
</tbody>
</table>

The adequacy of the requested budget with regard to the submitted research programme will also be evaluated. The Scientific Commission may reduce the requested budget up to a maximum of 15%. If the adequacy between the research programme and the requested budget is not justified and appears to require a reduction of more than 15%, the research programme will not be deemed fundable.

**Article 17**

The decision-making body of the F.R.S.-FNRS allocates funds according to the budget that is available. It decides on the granting or rejection, and where provided for, on the amounts to be granted.

**CHAPTER V: FINANCIAL PROVISIONS**

**Article 18**

Funding granted through the PDR instrument is subject to a research agreement.

This agreement shall bear the signature of the following parties:
The promoter commits to carrying out the funded research;
The F.R.S.-FNRS commits to allocating grants covering the personnel, operating and equipment costs, each year covered by the agreement. No transfer between those 3 expense items may be accepted;
The host institution.

In the particular case of joint research carried out by several promoters in several host universities, each institution takes part in the agreement, which contains all the relevant provisions regarding the personnel recruitment, the management of grants and the equipment ownership.

The agreement provides for unilateral termination clauses, which must include a period of notice.

Article 19
Any change made to the planned expenditures must receive the prior written approval of the F.R.S.-FNRS.

The grants destined for the personnel are available only for the duration of the agreement and are divided according to the provisions of the agreement.

The grants destined for operating and equipment costs can be used for the duration of the agreement, with an additional 12-month period.

The remaining amount will be recovered by the F.R.S.-FNRS.

Article 20
The grants at the disposal of the promoters are managed by the financial department of the institution to which they are attached.

The financial department of the institution shall send the supporting documents to the F.R.S.-FNRS as soon as possible.

For the personnel costs relevant to a given calendar year, the supporting documents must be sent before the 1st March of the following year.

For operating and/or equipment costs, the supporting documents must be sent at the latest 14 months after the end of the research agreement, i.e., before 1st March of the year in question.

Article 21
No hiring is effective without the prior written approval of the F.R.S.-FNRS.

The replacement of staff among the Doctoral researcher category is not authorised during the last 6 months of the research agreement.

The personnel recruitment which was expected although not effective on the starting date of the agreement may be delayed. However, postponement shall be equivalent to the lost employment duration and not exceed a six-month period after the end of the agreement nor the employment duration initially allotted.

Article 22
Scientific and technical personnel recruitment shall be in accordance with the scales and regulations in force within the host institution.
As for technical staff, Short-term Postdoctoral Researchers and Veterinary M.D. Ph.D. Specialist Fellowships, the F.R.S.-FNRS contribution is subject to an annual limit assigned from the Fund and is calculated in proportion to the number of days worked.

**Article 23**
The F.R.S.-FNRS shall reimburse personnel costs up to the total amounts indicated in the research agreement, while observing the Personnel categories.

Concerning Personnel categories there is some flexibility in terms of annual costs and duration, should the granting duration and maximum amount not be exceeded. Also for categories which are annually capped, this annual limitation shall not be exceeded, on the understanding that employment may not exceed the ending date of the agreement, in case the recruitment has been postponed as provided for in article 21 § 3.

The financial participation of the F.R.S.-FNRS is limited to the global amount indicated in the agreement.

**CHAPTER VI: MISCELLANEOUS PROVISIONS**

**Article 24**
Any device acquired with a credit from the F.R.S.-FNRS becomes the property of the host institution, to which the beneficiary of the credit is attached.

The purchase of any device must be done with due respect for the provisions defined by the relevant department of the host institution.

This institution commits, however, to putting the mentioned device at the disposal of the researchers involved for the time needed in order to conduct the research, which led to its purchase in the first place. In addition, the host institution commits not to alienating or lending the equipment without the prior written approval of the F.R.S.-FNRS.

In the event that the device was purchased with the provision of an additional funding, the Board of Trustees of the F.R.S.-FNRS will settle the ownership issue with the competent authorities.

**Article 25**
Grants are exclusively allocated for the execution of the research programme approved by the F.R.S.-FNRS. Promoters are required to use them solely for that purpose. Any fundamental change in the research programme must obtain the prior written approval of the F.R.S.-FNRS.

**CHAPTER VII: RIGHTS AND OBLIGATIONS OF THE PROMOTER**

**Article 26**
Any funded research programme must comply with the legal provisions in force regarding ethics.

**Article 27**
Promoters must submit to the rules imposed by the academic authority of the host institution where they work and observe its regulations. In addition, regarding the F.R.S.-FNRS, they must adhere to the regulation on property, protection and promotion of the results from the research carried out within the institution.
Article 28
Pursuant to the Regulation on the application of the Open Access policy to scientific publications resulting from research programmes supported by the F.R.S.-FNRS and its Associated Funds, any scientific publication resulting partially or fully from the funding granted as part of the PDR instrument shall mention the source of this funding as follows:

“This work was supported by the Fonds de la Recherche Scientifique-FNRS under Grant(s) n° [agreement number]”.

CHAPTER VIII: EX-POST INDICATORS

Article 29
The F.R.S.-FNRS collects ex-post quantitative indicators related to the funding of the PDR granted (e.g., number of publications, patents, dissertation and theses) as well as the publications list.

The main promoter shall communicate those data to the F.R.S.-FNRS on the e-space platform.
