

Invitation to virtual info session on Monday 22.01.2024

Weave – Research funding without borders

Jointly organised by the Fund for Scientific Research-FNRS (F.R.S.-FNRS) and the Research Foundation Flanders (FWO)

The bottom-up, cross-European initiative called **Weave** (<https://weave-research.net/>) was launched in December 2020 by European research funders to support excellent collaborative research projects across borders. By making proposals go through a single review process, Weave aims to simplify the submission and selection procedures of collaborative research proposals that involve researchers from up to three European countries or regions.

Weave is implemented through existing, bottom up, funding channels for fundamental research (with the corresponding timelines and conditions) in the participating funding agencies. Therefore, there are no additional restrictions on the thematic focus or subject.

The information session aims to reply to the following questions:

What is Weave, how does it work in practice? How can Weave facilitate scientific collaboration between researchers from the French-speaking community and Flanders? Which other bi- and trilateral collaborations are possible within Weave? What are the conditions, procedures and timelines to be followed?

We kindly invite you to the **virtual info session on the 22nd of January 2024 from 2.30 pm (CET) onwards**, during which the FWO and the F.R.S.-FNRS will present the **collaboration opportunities within the Weave initiative** and answer your questions during a Q&A session.

Please **register here**: https://us02web.zoom.us/webinar/register/WN_vjXwopUKTmallzy0f6ndA

Please note that you will receive the specific link to the Zoom webinar a few days before the info session.

For more information or questions, please contact international@frs-fnrs.be or weave@fwo.be.
