The F.R.S.-FNRS will give Doctoral Researchers who may be granted with a renewal (GRANT-REN and CD-REN) access to the electronic form via the [e-space](#) application.

The decision to allocate the grants will be made by the F.R.S.-FNRS Board of Trustees in July 2025. Télévie projects will start on 1st October 2025.

2. INSTRUMENTS

Télévie Call instruments are featured in the table below.

	Duration	Budget	Features	
Standard Télévie TLV	1 year or 2 years	No limita- tion	Single or cross-university project	
			➤ Personnel ²	Employer
			○ Full-time Ph.D. student (no CV required)	F.R.S.-FNRS
			○ Part-time Applicant to a Clinical Ph.D. (no CV required)	Hospital
			○ Identified postdoc requested for 2 years	F.R.S.-FNRS and/or University
			○ Identified part-time Postdoctoral Clinical Specialist requested for 2 years	Hospital
			○ Non-doctoral Researcher	University
			○ Technician	University
			➤ Operating ➤ Equipment ³	

¹ All times are Brussels local time.

² Certain categories of personnel are subject to an annual limit referred under section 3.7.

³ Only small equipment relevant to carry out the project will be considered.

	Duration	Budget	Features	
Télévie Research Project PDR-TLV	2 years	Max. €250k ⁴	Ambitious cross-university project	
			➤ Personnel	Employer
			○ Min. 1 Ph.D. student requested for the project:	
			- Full-time Ph.D. student	University
			- Part-time Applicant to a Clinical Ph.D.	Hospital
			○ Identified postdoc requested for 2 years	University
			○ Identified part-time Postdoctoral Clinical Specialist requested for 2 years	Hospital
			○ Non-doctoral Researcher	University
			○ Technician	University
			➤ Operating	
➤ Equipment: €200k max. for the duration of the project				

For all personnel to be recruited as part of the PDR-TLV, the promoter shall contact the relevant department of their university to determine their status and obtain an estimate of their cost based on the scientific seniority. Additionally, certain categories of personnel are subject to an annual limit referred under section 3.7.

3. SPECIFIC REMARKS

3.1 Justification in case of multiple Standard Télévie applications

A promoter who submits multiple Standard Télévie applications within the same call will have to justify them by showing either the links between the different projects or the differences among the submitted applications.

3.2 PDR-TLV accumulation rules

The number of applications that can be submitted within a call as a main promoter is limited to a single application for the PDR-TLV instrument.

Promoters in charge of an ongoing PDR-TLV may only apply for a new PDR-TLV application as from the second year of funding.

3.3 Involvement of CHU partners

The following measure applies to PDR-TLV.

University hospitals, clinics or hospital departments, hereafter referred to as "CHU", provide specific services to university researchers to carry out projects funded by the F.R.S.-FNRS.

To best use the funds allocated to scientific research the F.R.S.-FNRS enables researchers to include, as research partners, the CHU actively participating in the research project provided that these partner institutions are considered as entities affiliated with the host university receiving the funding requested.

In this respect, the F.R.S.-FNRS enables the university to declare the costs strictly generated by the CHU to carry out the funded project. The university is responsible for the CHU's compliance to regulations applying to beneficiaries of F.R.S.-FNRS funding, as well as to relevant tax regulations.

To proceed, the researcher **must imperatively** detail in their application form:

- the tasks and work packages undertaken by the CHU in the [template](#),
- the budget required to conduct these tasks under "Budget".

The researcher shall contact the relevant departments of their host university regarding the legal and financial regulations pertaining to this measure.

⁴ On an annual average for the duration of the project.

Please note: Are eligible only the hospitals, clinics or hospital departments affiliated with a university and listed in this [Appendix](#).

3.4 Doctoral personnel

The identity of the doctoral personnel is not required when submitting an application. After granting and identification, the doctoral personnel shall **not be replaced in case of discontinuation**.

3.5 Limitation of postdoctoral personnel categories to 4 years max.

The F.R.S.-FNRS Board of Trustees having decided, in December 2017, that as from call 2018, all postdoctoral personnel categories would be limited to 4 years max., **the promoters are invited to check the duration for the requested renewals in these categories** in order to be in accordance with this rule.

In case the requested candidate has already benefited from 48 months of postdoctoral research, the post will be obsolete; if the project does not require any other kind of personnel, the application will be so too.

3.6 Postdoctoral personnel

The requested Postdoctoral Researcher and Postdoctoral Clinical Specialist categories **must be identified when submitting the proposal**. The [curriculum vitae](#) (using the provided template) shall be attached to the application. Those candidates must hold a Ph.D. delivered by 1st May of the year of the application at the latest.

The postdoctoral personnel to be recruited **must be requested for two years** and may be renewed for two years.

Postdoctoral Researcher is requested in a host laboratory different from the laboratory of the thesis supervisor, unless they can justify a two-year mobility outside of their university of origin by the deadline of validation by the academic authorities (rectors), to other research institutions in the French-speaking Community of Belgium, Dutch-speaking Community or abroad.

3.7 Personnel costs

The categories below are subject to an annual limit, calculated in proportion to the number of days worked. Limitations in force for 2026 are:

➤ Applicant to a Clinical Ph.D.	€57,500- (part time)
➤ Postdoctoral Clinical Specialist: - Temporary doctor - Permanent doctor	€57,500- (part time) €75,800- (part time)

3.8 Operating credit allocated to researchers (Standard TLV instrument)

An operating credit may be provided for the doctoral and postdoctoral personnel according to their full-time or part-time activity, depending on the available financial resources.

4. CONTENT OF A PROPOSAL

Applicants will have the choice of writing their proposal either in French or in English.

The F.R.S.-FNRS insists on **strict compliance with the instructions given for each part of the proposal** (scientific section relevant to the instrument selected, number of pages allowed for documents to be enclosed with the application form...) and reminds that the Scientific Commissions have the final say in the assessment of the application file.

NOTICE: no further change or modification can be made in the proposal after the validation deadline set for the main promoter.

The application file contains the main sections described hereafter.

FORM

FRAMEWORK AND DESCRIPTION OF THE PROJECT

➤ TLV/PDR-TLV

1. References of the application (for the funded proposals, these data are released and made public on the [F.R.S.-FNRS website](#)).
 - **Title**, in French and in English (max. 200 characters each, including spaces) and,
 - **Summary**, in French and in English (max. 2,0000 characters each, including spaces).
2. Selection of descriptors fields
3. Bibliometric indicators
4. Scientific Curriculum vitae + Publications list⁵ of each promoter/co-promoter
5. Scientific section (see template)
6. Ethical aspects

6. National/international collaborations

5. TLV AND PDR-TLV APPLICATIONS EXAMINATION

➤ CRITERIA

Criteria that will be taken into account for the evaluation of applications are the following:

- Quality of the promoters,
- Quality of the project,
- Quality of the scientific personnel for the postdoctoral categories.

⁵ (Co-)Promoters who have been working for 2 years at least in institutions of the French-speaking Community of Belgium (CFB) that have set up an institutional repository (IR) must submit their publications list in a PDF format, directly created from this repository, and choose the appropriate F.R.S.-FNRS format.

Luxemburg (co-)promoters may complete their publications list using the template provided: [FR](#) - [EN](#).

For the PDR-TLV, the adequacy of the requested budget with regard to the submitted research programme will also be evaluated. The Scientific Commission may reduce the requested budget up to a maximum of 15%. If the adequacy between the research programme and the requested budget is not justified and appears to require a reduction of more than 15%, the research programme will not be deemed fundable.

➤ **ASSESSMENT OF THE DOCTORAL PERSONNEL**

The CV and identity of the doctoral personnel requested are not required in the application form.
